

Collaborations In Health Careers Pre-Requisites

March 5, 2024

The group held the Networking Event in the Commons Theater. It was attended by over 50 students who planned to enter the health careers programs at KVCC.

Amy Murray organized the dinner and the tables. Cynthia Schauer was the MC for the event. Program directors or representatives from nursing dental hygiene, respiratory therapy, EMT, and medical assisting provided an overview of their programs. Each program also brought a student or two from their program to network with pre-req students

Representatives from advising/counseling, financial aid, the Groves, and our college partners were present to talk with students.
