

Enrollment-Retention Committee  
January 13, 2023

Present: M. Kay, E. Annis, N. Bergan, A. Cederberg, K. Denman, M. Dunnebeck, A. Fontaine, C. Gearig, A Marsh-Peek, D. Mondoux, J. Selmon, A. Scheffler-Martin, E. Shufro, D. Coates, C. Colella, E. Dominianni, P. Eagan, S. Hubbell, C. Taylor, M. Thompson, Sherry Postula

Absent: C. Almeda, A. Moore, M. Morales, L. Thomas, M. Adams, E. Bell, C. Cockerel, S. Herrmann, T. Labadie, J. LaPenna, T. McFadden, C. Ross, T. Welsh

I. Welcome

- Feb 7 air zoo 5:30-7:30 presentation to families for 7-9 about early middle college program

II. Minutes of December 9, 2022 meeting were approved as presented; motion by N. Bergan, supported by E. Dominianni.

III. IR Update – D. Mondoux

- Registration numbers down slightly from last week- this is peek of winter enrollment
  - In the next few weeks we will is students drop out, highest numbers are now
- Returning students out-number new students
- International students are up
- Persistence KPI Fall to net fall
  - Trends over time – based on students who are new to KVCC “New to KVCC cohort”
    - Fall of 2013 through fall of 2022
      - Higher Transfers from 2019-2020
      - Stop outs remained similar during this time frame
      - Stable 55-59% still enrolled
      - Full time students’ numbers where down in 2021 during the pandemic, but higher awards granted
      - Part time more influx, bouncing back in part
        - New to KVCC numbers are up, but lower awards granted
        - Unknown reasons for lower awards granted
      - Fall 2020 high transfers
      - Less people started in 2020
        - dip in numbers not loss of existing students, dip was no new students
      - Fall of 2021 also down
      - Monitoring these trends going forward
      - 2020-2021 numbers could have been affected by
        - a loss of flexible classes and loss of orientation helping to get people full time enrollment
        - Part time costs more – less financial aid help
      - Keep in mind this is a small chunk of our student body
      - We have much higher returning students
      - Training students beginning with us and staying with us

## Enrollment-Retention Committee

January 13, 2023

- More adult students looking to obtain degree here not looking to transfer out
  - These numbers were generated before final 2021 numbers came in, but the difference will be finite
  - Discussion:
    - Reconnect – do we know who is new to us, vs previous students?
      - will review at next meeting where we are at with Michigan reconnect
        - Are these students coming back our previous students?
        - how can we reach out to those who are looking to reconnect outside of our previous students?
    - There are external factors effecting these numbers, trying to improve the margins but much is outside our control
      - Same factors influencing students going to college also affect them staying in college
- IV. Marketing Update – Erin D.
- Canvas:
    - Tutoring, when do we encourage students to seek it out? mid semester before drop dates
    - Things that are being pushed out to instructors that they are providing to their students month to month
      - Getting good feedback, will keep pushing
      - Can students get pop-ups, like for the teacher evaluation?
        - Can we have a pop up for tutoring or drop dates in their canvas when students log in? Would insure they see it and click ok
        - Eval kit is invasive – don't want to go to those extremes necessarily
  - Marketing
    - expanding advertising, in 5 local high schools doing digital advertising for 3 years starting this spring
    - Purchasing student names that have taking the SATs
    - KVFocus sent to printers 1/12
      - info on merit scholar winter spring, medical cannabis, spring enrollment
- V. Chat Bot - C Colella
- The Chat Bot started 2021-2022 school year
  - Mary Kay reads every message received by the bot
    - see where adjustments need to be made, interesting findings
    - issues when questions that we didn't expect but the bot learns based on the answers she provides
  - Able to see flow of activity
    - we get surge right before the semester begins
    - 11- 2pm and Thursday's are popular times
    - Desk top over mobile – but expect this to change over time

## Enrollment-Retention Committee

January 13, 2023

- Financial aid and Register top questions over all
- Can drill down into heat map to see what students are specifically asking about
- Discussion: Impact and next steps
  - Cuts down on calls and questions that a human doesn't need to answer
    - Meredith directs questions outside the existing frame work to be addressed asap
    - In future will be able to see impact on call volume
  - Tim and Erin working to do self-services password resets for students through Microsoft
  - Seeing activity on weekend and holidays
  - Can see correlations between KVFOCUS and influx of certain questions

### VI. MI Reconnect – A. Cederberg

- 2 reconnect bills passed in December – a third is being proposed
- Soon be able to implemented:
  - students will be able to withdraw from their reconnect money
    - a year after their first semester we will be charged fees for drawing from their money
    - the third year the student will have to pay
    - this will now be a policy that follows other states, follow SAP policy
    - If you withdraw a lot will no longer be eligible
  - Student can be making satisfactory process or a 2.0
    - Allows for us to have more tools to rehab a student's
      - When we monitor – it seems that students will need to earn 12 credit hours not just attempt but will have more time
      - Annual reporting will be increased significantly
  - Going to cover more things, previous Pell eligible programs only, looking to include more
  - 12 credits in an academic year
  - Out of district students will get Pell and reconnect, this language will most likely be corrected
- Discussion: Expected impact of these changes

### VII. EP student services matrix – E. Pauken

- Helps to see internal gaps
- Part of the strategic plan
- Today's Goal: go through as sub groups and review and discuss the coding – is it listed as a program but should be listed as a tool?
  - Go through and narrow down primary FUNTIONS for different components
  - Follow the guide provided to place these properly
- Committee Split into breakout groups for updating

**ENROLLMENT-RETENTION COMMITTEE**  
**DEPARTMENTAL UPDATES**  
**2.10.2022**

**ADVISING AND COUNSELING**

We have successfully shifted to hour-long appointments blocks Mon, Wed-Fri and to same-day appointments rather than drop-ins for Tuesday. Our goal is aim for 45-minute meeting with our students, with time for updating notes etc. This format will allow for some much needed time to create student plans in DegreeWorks and support students through their career exploration journey.

For same-day appointments students can call 269-488-4040 starting at 8am to schedule their half-hour appointment for the day. Since so many of our appointments are via phone or Zoom this allows for students to know when to expect their phone call or Zoom appointment. For students on campus, it allows them time to eat lunch or study, rather than waiting in a specific waiting area.

**ENROLLMENT MANAGEMENT**

Chelsie Taylor will be going to an onsite visit at Portage High School where they are going to have all their seniors fill out applications. Once this information is entered into our system then Chelsie can begin to build those necessary relationships with our future students.

Jonathan Selmon will be doing a “Get It Done” event with the Kalamazoo Promise staff at Phoenix High School the first week of March. They will help students complete their Promise applications, as well as have financial aid, KVAAP, and advising staff available to help students get ready for fall registration. We hope for this to be an eventful day at Phoenix High School.

This week our High School enrollment for winter is up 10.8% over last year. Our First time in any College enrollment is up 12.6% and our International Students are up 27% over last year. I’m very proud of the hard work that is happening in the Enrollment Management Department. We have huge goals to meet for fall, but we continue to push hard each week and are making progress. I am confident that this team will continue to prove that we can make a difference.

This Thursday the Enrollment team will be going to the FIC to learn more about the Horticulture Program so that we can push the information out into the community and help promote the program. If there are other programs that would like to give us highlights about their programs so we can do a better job of promoting them, please let me know, and I’ll arrange a time for you to come talk to our team. You can reach me at extension 4603.

Explore nearly 40 years of Kalamazoo's history at the **Kalamazoo Valley Museum's** new exhibit, "Moments in Time: The Kalamazoo County Photo Documentary Project."

The project started off as a way to capture how life was in the city of Kalamazoo in 1984, during the city's 100th anniversary year. The result of this collaboration between community photographers and the Kalamazoo Valley Museum is a new exhibit featuring the work of 41 of the 152 photographers who participated in the project.

Recently, the organizers of the project and some of the photographers who participated gathered to view the exhibit at the museum. See all of the photos from the event here: <https://bit.ly/3JFr8lk>

The Kalamazoo Valley Museum is operated by Kalamazoo Valley Community College and is governed by its Board of Trustees.

Admission is free to exhibits and to the museum. The museum is open 10 a.m. - 4 p.m. Tuesday - Saturday, and noon - 4 p.m. Sunday. For more information, visit <https://bit.ly/3Rrg9Oe>.

Mental health is essential for all people, from small children to older adults.

The college's @KalamazooMuseum in downtown Kalamazoo is hosting a special storytime for children that'll touch on mental health. It's happening Saturday, Feb. 18, from 1-3 p.m.

Kids and caregivers will listen to the storybook "How Full is Your Bucket?" by Tom Rath. When the story is over, kids and caregivers can participate in an activity to reflect on what their own bucket of positive and negative interactions might look like.

Then visit the newly opened special museum exhibit "Mental Health: Mind Matters" on the third floor. Learn more about mental health and how to be kind to your mind.

Learn more at the link in our bio.

The Kalamazoo Valley Museum is operated by Kalamazoo Valley Community College and is governed by its Board of Trustees.

It's now easier to reach out for help when experiencing a personal crisis.

988 has been designated as the new three-digit dialing code that will route callers to the National Suicide Prevention Lifeline (now known as the 988 Suicide & Crisis Lifeline).

When people call, text or chat 988, they will be connected to trained counselors who are part of the existing Lifeline network. These trained counselors will listen to the caller, understand how their problems are affecting them, provide support and connect them to resources, if necessary.
