TUITION-FREE COLLEGE AVAILABLE AT VALLEY

Sean Wables-Dexter, CAD design student

Attending college as an adult just got a whole lot less expensive - thanks to the Michigan Reconnect scholarship.

Last month, Gov. Gretchen Whitmer joined with Republican and Democratic legislators to announce the launch of the \$30 million Michigan Reconnect program, the largest effort in state history to ensure that more than 4.1 million Michiganders who are 25 or older and do not have a college degree

will have an opportunity to earn a tuition-free associate degree or skills certificate.

"All Michiganders deserve a pathway to a good-paying job, whether they choose to pursue a college degree, technical certificate or an apprenticeship," Whitmer said during a virtual news conference. "Michigan Reconnect will connect thousands of Michiganders to good-paying jobs and connect businesses with the talent they need to thrive in their communities. I'm proud of the hard work that has gone into creating this historic new opportunity and look forward to continuing bipartisan work with lawmakers toward our goal of ensuring 60% of Michiganders will have a postsecondary degree by 2030."

According to the Michigan Community College Association, in 2019 only 41% of the state's residents of working age had an associate degree or higher.

Michigan Reconnect is designed specifically for eligible adults who want to start – or finish – an associate degree or skills certificate at their in-district community college.

The program pays the remaining tuition balance and any other outstanding fees after financial aid has been applied. Adults currently enrolled at a community college can also take advantage of the scholarship.

"Going to college is a big decision but this is the time to do it," said Megan Pauken, director of enrollment management at Kalamazoo Valley Community College. "We are excited to welcome Reconnect scholars to the college."

Students can start using the Michigan Reconnect scholarship at Kalamazoo Valley for the summer semester, which begins May 10. A minimum of six credit hours must be taken to use the Reconnect scholarship.

To be eligible for the program, residents need to:

- Be at least 25 years old when they apply
- Have lived in Michigan for a year or more
- Have a high school diploma
- Have not yet completed a college degree

The application is located at www.michigan.gov/reconnect, takes less than five minutes to complete and can be done on a mobile device.

For more information about Michigan Reconnect at Kalamazoo Valley, visit www.kvcc.edu/reconnect or call 269.488.4303.

STUDENTS ASSIST WITH COVID-19 VACCINATION EFFORT

Kalamazoo Valley Community College is collaborating with Bronson Hospital and Kalamazoo County Health and Community Services (KCHCS) to assist with COVID-19 (Coronavirus) vaccination clinics in Kalamazoo.

"The college's nursing program has stepped up to do its part in serving the community," said Director of Nursing Patrick Joswick. "Faculty and students have gone above and beyond to help

by filling clinical and non-clinical duties associated with the COVID-19 vaccination project."

During a recent week long vaccination clinic at the Kalamazoo County Expo Center, Kalamazoo Valley nursing students helped to administer nearly 2,000 vaccinations per day. "We also have students working at the call center and at other clinics, vaccinating those associated with Mt. Zion Church on Robertson Street.

This is a great learning opportunity for our students," Joswick said.

Also, in collaboration with KCHCS, the college recently announced that it is providing an opportunity for employees to serve as volunteers with the vaccination effort. These efforts complement other college COVID-19 response initiatives including:

- Providing weekly lunches for frontline healthcare workers prepared by college culinary arts students and faculty chefs.
- Delivering produce and food items from the college's Food Innovation Center, collaborators and the culinary arts program to area non-profit agencies.

Nursing student Ellie Beachler administering COVID-19 vaccination

- Supporting the emergency response and relief efforts of area first responders and hospitals through the manufacture and donation of personal protection equipment.

"Community is a part of our name and we are proud to continue to support the Kalamazoo region through the amazing efforts of our faculty members, staff and students," said college President L. Marshall Washington, Ph.D.

ENROLL NOW IN SUMMER SEMESTER CLASSES

Summer semester at Kalamazoo Valley begins May 10 and the college is welcoming students from other colleges and universities to take classes as guest students to stay on track for graduation.

"The benefits of taking summer classes are endless," said Director of Enrollment Management Megan Pauken. "Not only does it help students stay on track, but students can also take advantage of our affordable tuition and small class sizes while completing classes that are offered in a shorter time

frame than in a standard semester." Kalamazoo Valley makes becoming a guest student easy.

"Students need to complete a Kalamazoo Valley application at www.kvcc.edu/apply and identify themselves as a guest student," said Kalamazoo Valley's Director of Admissions, Registration and Records Sarah Hubbell. "Students will receive an acceptance letter within one week containing the information they need to register for classes through the college's self-service online portal."

Before enrolling, guest students should consult with their current college or university to ensure that the classes they take at Kalamazoo Valley will be accepted as transfer credit and fit their specific area of study. Once they have completed summer course work, students need to be sure to submit a request to have an official transcript sent back to their primary institution.

This summer, the college is offering a mix of in-person, online and hybrid classes. "A variety of our classes will have an in-person

component," Hubbell said. "We're excited to have students back in the classroom."

These classes range from cellular biology and public speaking to college writing and American history. A complete class schedule can be found at www.kvcc.edu/schedule.

Guest students are not the only ones who benefit from taking summer classes.

"Many of our community college students enroll in summer

semester classes to keep on pace to complete their programs in a timely manner," said Provost and Vice President for Instruction and Student Services Dr. Paige Eagan. "The summer semester allows students to focus on rigorous courses required for many of our programs."

Registration for summer classes is available now. The first session of summer classes starts Monday, May 10. The second session begins July 1. Online class registration is available at www.kvcc.edu/register.

RESPIRATORY CARE STUDENTS GAIN EXPERIENCE ON THE FRONTLINE

When they enrolled in Kalamazoo Valley's respiratory care program last year, students had no way of knowing that they would become firsthand witnesses to a worldwide pandemic.

"Coronavirus is a respiratory pandemic," said Kalamazoo Valley's Respiratory Therapy Program Director Susan Pearson. "When people get sick with the virus, they have mostly respiratory symptoms. You're only hearing about doctors, nurses and first responders, but our respiratory students have been in the midst of the pandemic. They've been in the ICU, working with ventilators and working with the sickest of the sick patients. Our students are literally on the frontline. I am so proud of my students and the way they've maintained their professionalism."

Kalamazoo Valley's second year respiratory care students have had to deal with death and dying, exhibiting compassion for dying patients and coping with the horrors of Coronavirus patients dying alone, Pearson explained.

Respiratory therapists evaluate, treat and care for patients with heart and lung diseases. They manage sophisticated life-support systems for adults, children and premature infants. Pearson explained that first-year students participate in classroom and laboratory instruction and during the second semester in the program, they start their hospital clinical experience. Second-year students are polishing their skills in the intensive care units.

There are currently 16 first-year students in the Associate of Applied Science in respiratory care program and 20 second-year students. After earning an associate degree, respiratory therapists can take the national board exam to gain state licensure to work in the field. Pearson said now, more than ever, respiratory therapists are in demand. "They are in desperate need," she said. "I get emails from all around the country and 100 percent of our graduates are receiving job assignments." The training program is fast paced and so is the job itself, Pearson

Students Courtney Wall (L) and Josie Corwin (R)

Students Aleicia Freeze (L) and Thomas Wierenga and Cara Minto (R)

said. Respiratory therapists use high tech equipment to assess patients' breathing and respond rapidly to crucial changes. "If you can't breathe, nothing else matters," Pearson said, "We're the gatekeepers of the airways."

Courtney Wall changed her major a few times when she started college right after graduating from high school in 2014. She worked in the kitchen at a nursing home and as a certified nursing assistant. It was that experience that convinced her that she wanted to continue to work in the healthcare field, but not as a nurse. She changed her major to respiratory therapy, applied to Kalamazoo Valley's program and was thrilled to be accepted. "I got in and I love it," she said.

And while she loves the experience she's gaining at Bronson through clinicals, Wall acknowledges that the pandemic has brought about extremely challenging situations. "It's been really hard," she said. "Probably the hardest thing I've ever done. I've seen patients passing away and there's nothing we can do about it."

Grand Rapids native Thomas Wierenga had originally planned to go to nursing school, but his infant son's medical problems sparked an interest in respiratory therapy. "My son, when he was born, had a lot of respiratory issues," Wierenga said. He began to seriously consider his career options and decided that respiratory care made sense. "The thing that stands out the most for me between nursing and respiratory care is the level of

responsibility," Wierenga said. "I've been in the medical field my whole life, but in a support role. Now I'm the person who's there when things start to go really bad. I've always worked in emergency care where within an hour the patient has either been treated or discharged. With COVID, people come in and progress toward dying."

Theresa Devine is another second-year student. She went to nursing school right after high school and worked as a consultant/supervisor in the field for 30 years before returning to college for respiratory therapy training. "It's been a hard semester," she said, explaining that ventilators are a challenge because there are several different kinds and they can be customized, which means learning a new setup at each hospital.

"We've had to almost learn a new language for different machines," Wierenga said. "It's like a whole new language and it's hard to keep learning all new stuff."

While working during the pandemic has been traumatic, Pearson's students are not complaining. They're grateful for the experience and the support they've received from the college. "There have been positives and negatives," Devine said. "We're a group of people who get to see the pandemic firsthand and learn from it. Everybody is in the same boat."

Wierenga said the college's counselors have been especially helpful. "We've learned coping mechanisms to help us

get through this," he said. He's also grateful to have received a scholarship from the college. "I can't even tell you how much that changed my life," he said of the \$1,000 scholarship he received.

Wall said it's been hard to care for patients who have lingering health problems. "COVID patients are developing long-term side effects like blood clots in their lungs and neurological issues," she said. "These are younger people who have bad side effects months and months later."

The need to quarantine to prevent the spread of Coronavirus has also impacted the students. "There can be no family members in with Coronavirus patients so we're not learning that aspect of our job – how to deal with angry parents or how to talk to people about a loved one who's not going to be getting better," Wierenga said.

Despite the stress and the trauma of working with Coronavirus patients, all three students are on track to graduate in May and they're certain that they're on the right path and confident with the skills they're attaining.

For more information about Kalamazoo Valley's respiratory care practitioner Associate of Applied Science degree, go to www.kvcc.edu/programs/health_careers/rcp.php. Health careers applications for the Fall 2021 semester will be accepted online from April 1 to 15. Access the application at https://p2.kvcc.edu/utilities/health_careers/.

Chef Cory Barrett

L. Marshall Washington, Ph.D.

Cory Barrett, co-director of Kalamazoo Valley Community College's culinary arts program and the Spring 2019 Food Network Spring Baking Champion will team up with college President L. Marshall Washington, Ph.D., to present a thirty-minute baking demonstration to help raise funds for student scholarships on Thursday, May 13, 2021.

Sponsors are needed for this professionally produced, engaging

program which will feature the two hosts creating a delicious sweet potato tart. The program will also include messages from past college scholarship recipients and remarks from Foundation Board Chairperson Travis Grimwood, from Development Committee members Matt Rzepka, Stacie Ferschweiler and Vice Chairperson Michelle Eldridge.

The program will be streamed beginning at 7 p.m. on May 13.

Sponsors will receive:

- Advance promotion on the official event website at www.kvcc.edu/foundation.
- Logo promotion and spoken recognition the night of the show
- Inclusion on the Foundation website at www.kvcc.edu/foundation.
- Special show access link to share with up to 12 others the night of the show.

Please help a student's dream of a college education become reality. Sponsorship of the May 13 event is vital to our ability to meet the financial needs of Kalamazoo Valley Community College students. Sales of individual tickets will begin in mid April. See kvcc.edu/foundation for details.

FOUNDATION 

SCHOLARSHIP FUNDRAISING EVENT
VIRTUAL BAKING SHOW

May 13, 2021 | 7 p.m.

A sweet way to help students succeed!

MESOAMERICAN PERMACULTURE DISCUSSION SERIES

As a part of the community education program offerings, Kalamazoo Valley is partnering with Transformational Connections to offer the Spring 2021 Mesoamerican Permaculture Discussion Series.

Transformational Connections of Southwest Michigan is a Michigan 501c3 whose mission is "To provide volunteer

opportunities in the developing world and foster life-changing experiences within ourselves, our community and those we are serving." They have developed over 12 trips to the Lake Atitlan, Guatemala region, including study abroad courses through local universities. Transformational Connections looks forward to travel to and with their partners in Guatemala in 2022.

INDIGENOUS PEOPLE AND BIODIVERSITY: IMPERATIVES FOR FOOD SOVEREIGNTY

Instructor: Rony Eleazar Lec Ajcot, Institute of Mesoamerican Permaculture (IMAP)

Saturday | May 1 | 10 a.m. - 12 p.m.

This course will introduce participants to the bridge between Indigenous people, biodiversity and traditional knowledge as pillars for food sovereignty, locally and globally. It will present the crucial role of Indigenous people as guardians of biodiversity and natural resources, and will demonstrate how these elements are connected to our daily life, and how they ensure food security for humankind.

Rony Eleazar Lec Ajcot, instructor

WHAT IS PERMACULTURE: FOOD SECURITY, ECOLOGICAL DESIGN AND COMMUNITY RESILIENCE

Instructor: Shad Qudsi, Program Director, Wellkind Guatemala

Saturday | May 8 | 10 a.m. - 12 p.m.

Permaculture is more than just gardening. It is an integrated system of ecological design that helps humans create sustainable and regenerative systems, cultures and ways of living. Permaculture teaches us to optimize our footprint and then maximize our handprint. After meeting our needs in healthy ways, we can maximize impact in our communities by applying the permaculture design principles to both the ecological and social realms. This short course explores the essence of Permaculture, the design principles, and the importance of personal and communal resilience during these rapidly changing times.

BARRIERS TO THE ADAPTATION OF PERMACULTURE ON A WIDESPREAD BASIS ACROSS RURAL GUATEMALA AND WHAT WE CAN DO TO MODIFY OUR APPROACH

Instructor: Neal Hegarty, Founder, Granja Tzikin

Tuesday | May 18 | 7 - 9 p.m.

This short course begins with an account of some of the most pressing issues facing rural Indigenous communities in Guatemala based on feedback from our farmer training programs. We then look at some of the common mistakes we have seen non-governmental organization (NGO) make in their agriculture programs and explore how Permaculture Design can help address these problems. We stress the importance of cultural understanding in field of development work and explore intersections between new practices and traditional ways.

Shad Qudsi, instructor

GLOBAL NORTH-GLOBAL SOUTH RELATIONSHIPS THROUGH MESOAMERICAN PERMACULTURE LENSES

Instructor: Christian Chacón, Institute of Mesoamerican Permaculture (IMAP)

Tuesday | June 1 | 7 - 9 p.m.

The course will address the importance of understanding power relationships between Global North and Global South territories in order to contribute to environmental and social justice and how Mesoamerican Permaculture can provide some guidelines for this.

All classes are virtual and cost \$5. To register visit www.kvcc.edu/community and click on Sustainable Foods, Farms and Gardens.

TRAIN TO BE A POLICE OFFICER

Police Officer Training Academy classes

Want to be part of the nationally recognized Kalamazoo Valley Community College Police Officer Training Academy? The next 16-week academy begins August 23, with applications being accepted beginning April 5. The application deadline is May 28.

Director of Kalamazoo Valley's Law Enforcement Training Center, Victor Ledbetter, whose efforts in diversity training have received both local and national recognition, says graduates from the academy enjoy the highest employment rate in the state. A total of 92 percent of alumni are employed in the field, compared to a statewide average of 69 percent.

In addition to a week devoted to diversity training, specialized areas of instruction in the academy include:

- 34+ Hours of Scenario Training
- Building Searches
- Application and Interviewing Training
- K-9 Familiarization
- Weapons of Mass Destruction
- Incident Response to Terrorist Bombing
- Pepper Spray Exposure
- Rapid Deployment
- Emergency Vehicle Operation
- Pistol, Shotgun and Patrol Rifle

Applications are available at www.kvcc.edu/police.

For more information about the Police Officer Training Academy, contact Ledbetter at 269.353.1261 or vledbetter@kvcc.edu.

VIRTUAL FOODWAYS SYMPOSIUM SET FOR APRIL 5 - 10

Abra Berens

The symposium is sponsored by Kalamazoo Valley Community College, Kalamazoo Valley Museum and a number of community collaborators. The Kalamazoo Foodways Symposium inspires and empowers greater Kalamazoo area communities to honor its agricultural history and heritage cuisines, celebrate good food and work together to build a just and healthy future for all.

The 2021 Kalamazoo Foodways Symposium: Plant Forward Foodways will be a fully virtual event. It will focus on the future of foodways and will provide a platform for discussions not only about the intersection of food and culture, but health and environment as well.

The keynote session, scheduled to go live at noon Monday, April 5, will feature a cooking

demonstration by author and chef Abra Berens. Live Q&A sessions will be offered at the end of the event, on Saturday, April 10 from 11 a.m. - 12 p.m. Berens is a chef, former farmer and writer who believes that the meals we eat should change with the seasons and that their ingredients should come from nearby. She strives to make simple, delicious meals that champion the region.

Her first cookbook, Ruffage: A Practical Guide to Vegetables, is a teaching cookbook that aims to help build readers' confidence in preparing vegetables by providing easy-to-follow recipes, detailed explanations of cooking techniques and a myriad of variations for each recipe to inspire future dishes. Berens will focus on how plant-forward cooking can be exciting, healthy, sustainable and delicious. She will provide

recipes and tips to follow.

Throughout the rest of the week, educators, chefs, home cooks, activists and neighbors from the Kalamazoo community will present live sessions via Zoom. Topics will range from making your own soda syrups and vegan cheeses to at-home sustainability practices like composting and building a habitat for native bees and demonstrations and talks that share personal stories and traditional recipes - all with a focus on a love of plants and vegetables.

Sessions are scheduled at various times throughout the day from Monday, April 5, through Saturday, April 10. A full schedule and registration information is available at www.kalamazoofoodways.org. The event is free and open to the public.

CALL FOR ENTRIES FOR 10TH ANNUAL ALUMNI+ ART SHOW

Kalamazoo Valley's 10th Annual Alumni+ Art Show will premiere on Friday, June 4, 2021 at 5:30 p.m. Submissions are being accepted April 5 - May 19. Art will be displayed in the Center for New Media and on the CNM's Instagram and Facebook accounts. The Distinguished Alumni Award winner will also be announced that night. Watch for details in upcoming publications.

This juried art show enables Kalamazoo Valley alumni to showcase their work. There is no entry fee. Each year this show is held at Kalamazoo Valley's Center for New Media in conjunction with Art Hop.

Works submitted will be considered for awards which will be announced on the night of the show. Show judges are area professionals who come from a variety of disciplines and whose expertise

enables them to deliver expert, but impartial, determinations. An alumni artist can enter the show if he or she: 1) has successfully completed at least one class at Kalamazoo Valley, and 2) is not currently enrolled in any class at the time of the show (summer 2021); and 3) is not a Kalamazoo Valley employee.

For more details and to access the Call for Entry Form, Gallery Requirements Form and the Exhibit Agreement Form, go to www.kvcc.edu/alumni/artshow.

Art must be dropped off at the CNM or sent to Cindy Parks, cparks@kvcc.edu by 4:30 p.m. on May 19, 2021. For more information contact Tom Hamann, thamann@kvcc.edu, or call 269.373.7881. CNM hours vary. Please check before delivering artwork.

SUMMER SPORTS CAMPS

For nearly 30 years, Kalamazoo Valley Community College has offered summer sports camps for area students. This summer, a number of truly unique Cougar Camps – for boys and girls basketball, volleyball and softball – will again be offered at the college's Texas Township Campus. New this year is the Cougar Conditioning Camp.

Strict COVID-19 safety protocols will be enforced, including: limited number of campers, daily self-health screenings, use of face coverings and regular sanitizing of equipment. Campers are asked to bring their own water bottles and equipment (if available).

VOLLEYBALL CAMP

June 21 - 24 | 9 a.m. - 4 p.m.
Girls entering grades 6 - 8 | 9 a.m. - 12 p.m.
Girls entering grades 9 - 12 | 1 - 4 p.m.
Equipment needed: Gym shoes, socks, shorts, knee pads, jersey or t-shirt and labeled water bottle or thermos.
Camp fee: \$110 until May 17. \$135 for registrations received after May 17. Registration closes June 14.

GIRLS BASKETBALL CAMP

July 5 - 8 | 9 a.m. - 4 p.m.
Girls entering grades 6 - 8 | 9 a.m. - 12 p.m.
Girls entering grades 9 - 12 | 1 - 4 p.m.
Equipment needed: Gym shoes, socks, shorts, jersey or t-shirt and labeled water bottle or thermos.
Camp fee: \$110 until May 31. \$135 for registrations received after May 31. Registration closes June 28.

COUGAR CONDITIONING CAMP

July 12 - 15 | 10 a.m. - 12 p.m.
Boys and girls entering grades 6 - 12
Equipment needed: Gym shoes, socks, shorts, t-shirt and labeled water bottle or thermos.

The camp will provide youth the opportunity to gain strength and conditioning for their particular sport or just overall physical well-being. Activities include, but are not limited to: increasing performance while decreasing injury, dynamic warm-ups, footwork, agility, speed work, conditioning, core work, flexibility, leadership and nutritional awareness.
Camp fee: \$80 until June 7. \$105 for registrations received after June 7. Registration closes July 5.

BOYS BASKETBALL CAMP

Session 1: July 12 - 15 | 9 a.m. - 4 p.m.
Boys entering grades 6 - 8 | 9 a.m. - 12 p.m.
Boys entering grades 9 - 12 | 1 - 4 p.m.
Session 2: July 19 - 22 | 9 a.m. - 4 p.m.
Boys entering grades 6 - 8 | 9 a.m. - 12 p.m.
Boys entering grades 9 - 12 | 1 - 4 p.m.
Equipment needed: Gym shoes, socks, shorts, jersey or t-shirt and labeled water bottle or thermos.
Session 1: Camp fee: \$110 until June 7. \$135 for registrations received after June 7. Registration closes July 5.
Session 2: Camp fee: \$110 until June 14. \$135 for

registrations received after June 14. Registration closes July 12.

SOFTBALL CAMP

July 26 to 29 | 9 a.m. - 4 p.m.
Girls entering grades 4 - 7 | 9 a.m. - 12 p.m.
Girls entering grades 8 - 12 | 1 - 4 p.m.
Equipment needed: All campers should arrive dressed to play each day with a softball glove, bat, helmet, cleats and labeled water bottle or thermos.
Camp fee: \$110 through June 21. \$135 for registrations after June 21. Registration closes July 19.

Registration is now open. To register visit: athletics.kvcc.edu/camps. A limited number of scholarships are available. Contact Russ Panico, athletic director, at rpanico@kvcc.edu or 269.488.4393.

Cancellation Policy: Campers may cancel or request a refund (less a \$25 administrative fee) up to seven days before their camp begins. No refunds will be given after this deadline.

STUDENT-CRAFTED BEER

BUY WORLD CLASS STUDENT-CRAFTED BEER EVERY TUESDAY UNTIL APRIL 27 AT 418 RESTAURANT

Marilyn J. Schlack Culinary and Allied Health building
418 E. Walnut Street

Curbside pickup is 1 - 6 p.m. on Tuesdays. Please approach the door for the 418 Restaurant for pickup.

Order online at 418restaurant.hrpos.heartland.us/menu

CAREER EXPLORATION AT EARLY/MIDDLE COLLEGE CAMPS

Kalamazoo Valley's popular Early/Middle College Explore Your Future Careers Summer Camps return in July. Designed for students entering 6th, 7th and 8th grade, the camps explore a number of different career paths on one of the college's four campuses. Camps are led by Kalamazoo Valley instructors.

Strict COVID-19 safety protocols will be enforced, including: limited number of campers, daily selfhealth screenings and the use of face coverings.

1000 WORDS- THE ART OF THE STORY

July 12-15 | 9 a.m. - 12 p.m.
Cost: \$75 per camper
Location: Center for New Media

Learn how illustration lends to a story. Campers will explore how illustrations can lead to a different conclusion than what is heard. Draw your own images to match the story YOU want to tell!

SHORT SHORT STORIES!

July 12 - 15 | 9 a.m. - 12 p.m.
Cost: \$75 per camper
Location: Center for New Media
This camp emphasizes creativity as well as the process and craft of writing. You will find inspiration from published authors, unique writing prompts, the world around you, and a trip to the Kalamazoo Valley Museum.

POETRY IN MOTION - DIGITAL PAINTING

July 12 - 15 | 1 - 4 p.m.
Location: Center for New Media
Campers will have the opportunity to learn to paint and animate digitally. Artwork will be stored on a flash

drive sent home with campers at the conclusion of camp.

STENCIL ME IN!

July 12 - 15 | 1 - 4 p.m.
Location: Center for New Media
Turn your selfie into a painted stencil. Campers will use Photoshop to capture their image, then using detailed cardboard cutouts, turn their image into a stencil and into a painted impression.

URBAN FARM EXPLORERS

July 26 - 29 | 8:30 a.m. - 12 p.m.
Location: Food Innovation Center
Campers will explore the greenhouses, plant a salad in a tray to take home, learn about microgreens, see what is in bloom and much more!

Register at www.kvcc.edu/earlycollege beginning April 1. Limited scholarships available. Contact Dr. Deborah Coates at dcoates@kvcc.edu for more information.
